Dal 1959 sviluppiamo sistemi per l'ottimizzazione dello spazio in cucina e in particolare per l'organizzazione delle basi, delle colonne armadio, degli angoli e delle nuove boiserie.

Puntiamo alla qualità dei prodotti, alla freschezza delle idee proposte dal design italiano.

La collaborazione con architetti e designers esterni ci permette di avere i prodotti giusti nel momento stesso in cui il mercato e i clienti lo richiedano.

Le nostre collezioni sono il risultato di un grande lavoro di ricerca e sviluppo che coprono tutte le necessità di fascia; media, medio-alta e alta, in relazione al rapporto qualità prezzo di cui oggi non si può non tenere conto.

Le nuove soluzioni, corredate da accessori di alta qualità, sono frutto di un costante sforzo volto a migliorare la fruibilità della zona cucina e della zona living.

Un risultato reso possibile grazie all'indispensabile e continua collaborazione con i nostri clienti, fra i quali troviamo i più importanti nomi italiani del mondo cucina.

Since 1959 we have been developing systems for the optimization of space in the kitchen, particularly for the organization of the base units, the columns, the corners and the new boiserie.

We aim for the quality of the products, the freshness of proposed ideas and the Italian design.

The collaboration with external architects and designers allows us to have the right product at the same time as market and customers require it.

Our collections are the result of a great deal of research and development, and cover needs of any range: medium, medium-high and high, in relation to the value for money, which today cannot be ignored.

The new solutions, accompanied by high quality accessories, are the result of a constant effort aimed at improving the usability of kitchen and living areas.

A result made possible thanks to the indispensable and continuous collaboration with our customers, among whom we find the most important Italian names of kitchen world.

Technical

La progettazione ha rielaborato le proporzioni e reso il sistema dinamico e versatile; i componenti, di grande valore estetico, possono essere posizionati ad altezze diverse, permettendo ad ognuno di crearsi i propri spazi verticali in cucina.

Desert

The planning reworked proportions and made the system dynamic; the components have great design value, can be placed at different heights, and allow everybody to create his own vertical space in the kitchen.

Desert

Le soluzioni del sistema Moving sono studiate per arredare lo spazio tra pensili e basi ma possono essere inserite anche in pareti "libere", garantendo la massima libertà di progettazione.

Grey Stone

The solutions of Moving system allow to exploit optimally the space between base and hanging cabinet, and can be placed on "free" wall too, assuring maximum design freedom.

Grey Stone

Grey Stone

Il sistema, nato da un'idea del designer Carlo Tinagli, risolve il problema classico delle Boiserie che necessitano di tempi lunghissimi per il montaggio.

Silver Dark

The system, inspired by an idea of designer Carlo Tinagli, solves the classic problem of boiserie, which usually needs a very long time to be mounted.
