AWARDS
WINNER

IRIS è il nuovo lavello di TASCA, con bordo perimetrale di altezza 20 mm progettato per creare un'area di lavaggio dal forte impatto estetico. Oltre all'esclusiva installazione ad incasso rialzato "overtop", il lavello **IRIS** si distingue anche per il nuovo design a scomparsa della piletta e del troppopieno. Nella versione con banco miscelatore Iris adotta di serie la piletta Flick con comando remoto a pressione.

IRIS is TASCA new sink model with a 20 mm high rim, designed to create a washing area of strong aesthetic impact. In addition to the exclusive "overtop" or raised built-in installation, **IRIS** sink also stands out for the new concealed design of the waste and overflow. In the version with tap ledge, Iris features the Flick pop-up drain kit with remote control as a standard.

AURA è l'attesa e l'evoluzione di Canova, il modello TASCA che ha conquistato il mercato grazie al suo design essenziale e alla massima versatilità.

Questa nuova serie di lavelli e vasche a raggio 12 mm è stata ridefinita con una meticolosa attenzione al dettaglio, introducendo due elementi unici che ne ottimizzano estetica e funzionalità:

troppopieno circolare integrato: Un dettaglio pulito e discreto che si fonde perfettamente nella vasca.

scarico complanare con coperchio a filo: La soluzione che elimina ogni interruzione sul fondo del lavello, facilitando la pulizia e garantendo una continuità visiva impeccabile.

A completare l'estetica sofisticata, il bordo perimetrale da 15 mm assicura un look slanciato e alleggerito, senza però compromettere la solidità e stabilità che contraddistinguono ogni lavello TASCA.

AURA is the highly anticipated evolution of Canova, the TASCA model that has won over the market thanks to its essential design and outstanding versatility.

This new series of sinks and bowls with a 12 mm radius has been redefined with meticulous attention to detail, introducing two unique features that enhance both aesthetics and functionality:

round integrated overflow: a clean, discreet detail that blends seamlessly into the bowl.

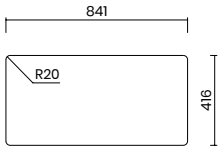

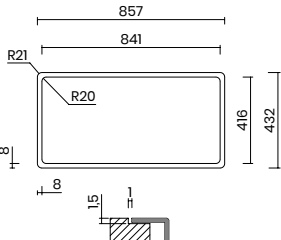

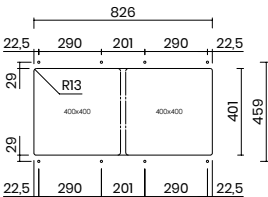

The basket drain cover flush with the sink bottom: a solution that eliminates any interruption on the bottom of the sink, making cleaning easier and ensuring flawless visual continuity.

Completing the refined aesthetic, the 15 mm rims convey a sleek, lightweight look without compromising the strength and stability peculiar to every TASCA sink.

- GRADINO A METÀ ALTEZZA DELLA VASCA PER LO SCORRIMENTO DEGLI ACCESSORI SU PIÙ LIVELLI
- WORKSTATION COMPATTA
- TROPPOPIENO INTEGRATO
- DESIGN ESCLUSIVO PILETTA LOTUS
- TRIPLA INSTALLAZIONE: SOPRATOP / FILOTOP / SOTTOTOP

- MID-HEIGHT STEP FOR MULTILEVEL SLIDING ACCESSORIES
- COMPACT WORKSTATION
- INTEGRATED OVERFLOW
- EXCLUSIVE LOTUS DESIGN DRAIN KIT
- TRIPLE INSTALLATION: TOP / FLUSH / UNDER MOUNT

STEP è il nuovo concetto di lavello in Acciaio Inox AISI 304, elevando lo standard della cucina moderna. Non è solo una vasca, è una vera e propria workstation multifunzionale progettata per la massima efficienza.

Il cuore del design **STEP** è il gradino unico a metà altezza della vasca. Questa caratteristica ingegneristica trasforma il lavello in una piattaforma di lavoro a due livelli, permettendo agli accessori di: Scorrere dinamicamente, muoversi fluidamente garantendo un flusso di lavoro ininterrotto;

Avere appoggio stabile, fornire una base sicura per taglieri e vaschette, permettendo di preparare gli alimenti direttamente nel lavello e ottimizzando lo spazio sul piano cucina.

Con **STEP** TASCA rafforza la sua eccellenza nella produzione di lavelli attrezzati fatti a mano completando la famiglia che include già i modelli Harmony e Phantom Back.

Sistema Integrato: La compatibilità è totale. **STEP** accoglie l'intera linea di accessori Phantom Back, oltre ai taglieri e vassoi basic, offrendo flessibilità e personalizzazione totali alla tua area di preparazione.

STEP is the new concept in AISI 304 stainless steel sinks, raising the standard of the modern kitchen. It is not just a bowl, but a true multifunctional workstation designed for maximum efficiency.

At the heart of **STEP**'s design is a unique mid-height step inside the bowl. This engineered feature transforms the sink into a two-level working platform, allowing accessories to:

Slide dynamically: moving smoothly to ensure an uninterrupted workflow.

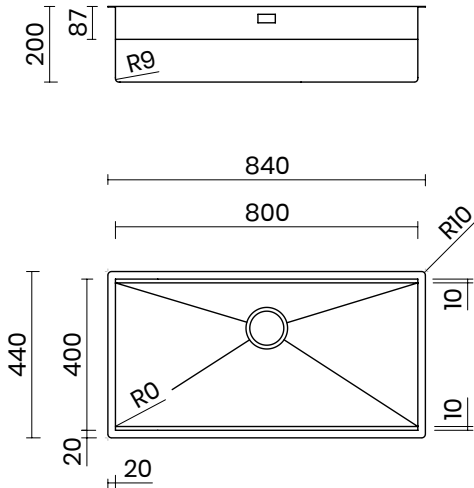

Provide stable support: offering a secure base for cutting boards and trays, enabling food preparation directly in the sink while optimizing countertop space.

With **STEP**, TASCA strengthens its excellence in the production of handcrafted equipped sinks, completing the family that already includes the Harmony and Phantom Back models.

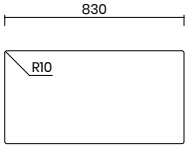

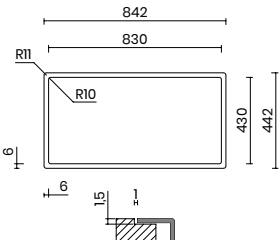

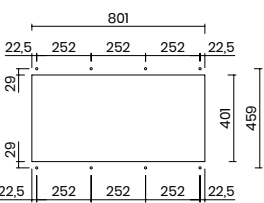

Integrated System for full compatibility: **STEP** is compatible with the Phantom Back accessories line, as well as with TASCA basic cutting boards and trays, allowing complete flexibility and customization for your preparation area.

CANOVA DuriX Black

Canova DuriX Black non è solo un lavello, ma una vera e propria rivoluzione in acciaio inox. La sua esclusiva colorazione nero opaco è trattata con la finitura DuriX Black, una tecnologia superiore che stabilisce un nuovo standard di performance. Questa superficie all'avanguardia è progettata per la vita quotidiana: è idrorepellente, anti-impronta e garantisce una straordinaria resistenza all'usura, superando di gran lunga le tecnologie finora disponibili sui lavelli in acciaio inox.

Canova DuriX Black is not just a sink, but a true revolution in stainless steel. Its exclusive matt black color is enhanced by the DuriX Black finish, a superior technology that sets a new benchmark in performance. This cutting-edge surface is engineered for everyday life: it is water-repellent, fingerprint-resistant, and conveys exceptional resistance to wear, far surpassing the technologies previously available for stainless steel sinks.
